Estimates of Vegetation Removed

Use this section to report the *TOTAL* amount of vegetation you removed from your property, whether you did it yourself or paid someone to do it. Include vegetation you burned, took to the dump, used WM bins, composted, or otherwise reused or recycled.

Total amount in cubic yards (if known): _____ Total Cubic Yards

*Or, **if you don't know how many cubic yards you removed**, use the following categories to itemize. We will calculate the total number of cubic yards from these categories.*

Lawn and leaf bags (average 39-gallon size): _____ Total Bags

WM yard waste containers (approx. 1/2 cubic yard each): _____ Total Containers

Pickup truck - 6' bed (approx. 3 cubic yards): _____ Total Truckloads

Dump truck (average size 12 cubic yards): _____ Total Dump Truck Loads

Roll Off Dumpster/Bin/Container (average size 20 cubic yards): _____ Total Dumpsters

Now that you have all the information...

Once you've used this form to gather your information, there are 2 ways to submit it to our online collection form where it's gathered and automatically processed. Both options feed into the same form, but **OPTION 1** is the better choice if you can use it.

1. Submit it yourself online. This is the easiest for you and for us; it can be done at your own convenience and does not require volunteer time.

Copy/paste this address to the form (this is not a clickable link): <https://bit.ly/6B-2024>

2. Call Allison Rapp at 530-559-4315. She will make an appointment with you for a time when she can open the form online and put your information in for you as you give it to her.

Please note: Option 2 will take more of your time than entering the information yourself. If at all possible, it's much easier for you and for us if you are able to use Option 1.

*Thanks so much for participating in our data collection this year!
